TOP QUALITY DEALS

As urban retail developers, we spent years building unique real estate projects in Washington, DC. But more often than not, when we went out to raise money it came from investment funds in places like New York City or even outside the country. Most of them had little connection to the places we were building.

WHAT TO EXPECT

Review and reserve investments

Real estate can be risky and unpredictable. As an experienced, informed investor, you will make better decisions than most people lost money when the real estate market declined in 2007-8.

Complete investor accreditation process

Before you can invest, you must be accredited. This means you must have a net worth of at least \$1 million or an income of at least \$200,000 per year.

Fund your preserved investments

You should expect to invest in real estate development projects. These are typically leveraged investments based on the value of the land in particular.

YOUR TOWN. OWN IT. IMPROVE IT. INVEST IN IT.

Investing in your town's future is a great way to support local economic development and help your community grow. We invite you to be part of the solution by helping to build and support the city via investing in real estate projects.

REVIEW AND RESERVE INVESTMENTS

or see their personal account

By clicking "Review and Reserve Investments", you agree to invest in real estate development projects. However, we do not make recommendations regarding the specific projects or the performance of the projects. We do not guarantee the return of your investment or the safety of your principal. Your investment may be subject to risk, including loss of principal, after above described fees are deducted.

The market can also change rapidly. For example, many experienced investors lost money when the real estate market declined in 2007-8. History has shown that the market can go down without warning, sometimes resulting in significant losses. You should never invest in real estate development in general, and in the specific projects offered on our platform, if you are not willing to lose all of your money.

We may provide financial projections for some of the investment opportunities listed on the Site. All such financial projections are only estimates based on current conditions and are not guarantees of future performance. Actual results may differ significantly from the projected results. We do not guarantee the actual result of any investment is likely to be different than the original projection, offered by a large amount. Neither we nor anyone else guarantees the results of any investment.

Neither the Securities and Exchange Commission nor any state agency has reviewed the investment opportunities listed on the Site.

Thank you for using the Site. If you have questions, please contact us at info@brelion.com.

BlueAuditor DGNB

SaaS solution for virtual DGNB certification of the construction projects

The image shows a hand holding a white tablet device. The screen displays the 'blue auditor' SaaS solution for virtual DGNB certification. The interface includes a dark sidebar with navigation options like 'Projekt Dashboard', 'Team', 'Benachrichtigungen', and 'Einstellungen'. The main dashboard area shows a grid of project cards. Projects listed include 'South Park', 'Seven West', 'Level Furnished Living', 'Blossom Plaza', 'The Langham Apartments', 'The Admiralty Apartments', 'Next On Sixth', and 'Eighth & Grand'. Each card provides details such as the project name, start date (e.g., Mar 14, 2017), current phase (e.g., 'Pre-Check'), and a 'DGNB Report' button. A search bar and a user profile for 'Jennifer Smith' are visible at the top right.
